STATE CONVENTION.

OFFICE OF
REPUBLICAN STATE CENTRAL COMMITTEE,
VIRGINIA CITY, NEV., May 20, 1886.

AT A MEETING OF THE REPUBLICAN
State Central Committee of Nevada, held
this day, it was resolved that a

REPUBLICAN

State Convention

— BE HELD AT —

CARSON CITY

— ON —

Friday, September 24, '86

At 1 o'clock P. M.,

For the purpose of nominating a full State
Ticket, viz:

Member of Congress,
Governor,
Lieutenant Governor,
Secretary of State,
Justice of the Supreme Court,
Clerk of the Supreme Court,
Attorney General,
State Controller,
State Treasurer,
Surveyor General,
Superintendent of Public Instruction,
State Printer,
Three Judges of the First Judicial District.

The appointment of a State Central Committee
and the transaction of such other business as
may properly come before the Convention.

The last of representation to said Conven-
tion was made as follows: One Delegate for
each fifty votes, and one for each fraction of
twenty-five votes or over, cast for the Blaine
and Logan Electors at the last election, aggre-
gating 144 Delegates apportioned as follows:

Churchill.....	2	Lincoln.....	4
Douglas.....	4	Lyon.....	7
Elko.....	13	Nye.....	4
Esmeralda.....	9	Ormsby.....	11
Eureka.....	12	Storey.....	26
Humboldt.....	11	Washoe.....	10
Lander.....	9	White Pine.....	8

The several Republican County Central Com-
mittees of the State are hereby instructed to
call PRIMARY ELECTIONS of the people

SATURDAY, SEPTEMBER 11.

For the purpose of electing Delegates to the
said State Convention, the Primary Elections
to be carried out in compliance with the laws
of the State and the instructions of this Com-
mittee.

The following test will be required of each
and every voter at the said Primary Elections,
viz: That he is a citizen of this State, and will
support the nominees of the Republican party
at the coming election.

C. C. STEVENSON, Chairman

F. C. Load, Secretary.

THE DECLINE IN SILVER.

Some of its Ruinous Effects on the West.

Grave alarm exists throughout the mining districts of Montana over the rapid decline of silver. The Butte Inter-Mountain estimates that 50,000 people in the Territory are dependent on the mining industry and cognate enterprises, including merchants, farmers and mechanics. The recent depreciation of 10 cents per ounce in silver represents the profits of the mining companies which will have to close down unless a reaction occurs. Lead and copper mining in which silver is an important co-product, are also seriously affected. The Glendale works, employing 1,000 men, will shut down on the 15th. The Alice, Moulton, Lexington and Wicks works, and many other great enterprises, which for years have paid heavy dividends, and employ thousands of men, cannot run if the present depression in the silver market continues. A general paralysis of business will result unless a change speedily occurs. Butte is a substantial city of 22,000 people entirely dependent on mining, 5,000 miners being employed. The copper smelters will continue in operation, but with decreased profits. The silver mills of Montana represent an investment of \$20,000,000, and the mining machinery as much more. The silver product of the Territory the current year, estimated at \$12,000,000, will be suddenly cut short and fully 12,000 miners thrown out of employment. The people are still brave and hopeful, but indignant at the action of Congress and the Administration. The reports from the mineral States and Territories to the Inter-Mountain are to the same effect, and directly affect the personal interests of a million Western people.

Supt. S. L. Jones, of the Crown Point and Belcher mines, says he will soon have to reduce the working force under his control on account of the great depreciation in silver. Thus it will be seen that this conspiracy against this noble metal, which injures the business of the entire country, is a direct blow at the prosperity of Nevada.

There is a growing feeling that the heirs of Tilden are dissatisfied with the division of the estate. They have refused to converse on the matter. Recorder Smythe, in speaking of Tilden's legacies, said the heirs would probably have good grounds to contest the will should they wish to do so. The ex-Governor had been palsied for years, and his health was greatly enfeebled.

The Consular District over which the British Consul in San Francisco has jurisdiction has recently been enlarged so as to embrace the States of California, Oregon and Nevada and the Territories of Washington, Idaho, Utah and Arizona. Formerly the district only included California, Oregon and Washington Territory.

General Miles rightly thinks that there is no hope of the reform of the Apaches so long as they are kept close to the border line of two nations. In the case of the Indians the truth is exemplified of the old Italian proverb that "Borderers are either thieves or murderers"—only in this case they are both.

Lily May Pavey, widow of the late Dr. Pavey, surgeon of the Greeley Arctic expedition, had donated to the National Museum the specimens collected by her husband on his trip to the Arctic regions, thus showing that the Government recognizes her as a lawful widow.

The officers of the Third Irish Regiment, San Francisco, at a special meeting Tuesday night, decided to offer their services to President Cleveland in the event of complications with Mexico.

President Cleveland is finishing up the business that requires his attention before the Summer vacation.

The Mexican Claim of Jurisdiction Over Cutting.

DENVER, August 10.—The Mexicans claim that Article 186 of the Chihuahua penal code, which provides for the punishment in Mexico of offenses committed in other countries, is not only in accord with the Mexican Constitution but also with the international law and the treaties with the United States. Among the authorities on international law they quote Heafer, Felix Ahrens, Bluntschli and more particularly Ortolan. It comes to the following three conclusions: First, that Article 186 is perfectly applicable to the case of Cutting. Second, that the article is in perfect accordance with the Mexican Constitution and treaties with the United States. Third, that the article is fully justified by the doctrines and precedents of international law. It calls the claim of the United States to deliver up Cutting perfectly ridiculous. The article referred to reads as follows: Crimes committed in foreign countries by a Mexican against a Mexican shall be punished in the Republic, whether he comes by his own free will or is brought by an extradition treaty. Second, that if the person offended is a foreigner, complaint must be made against him by the proper party. Third, when the accused has not been definitely tried in the country where the offense was committed, and when he has not been released, absolved or pardoned. Fourth, when the offense he is charged with is an offense punishable in the country where it was committed, and also in the Republic of Mexico.

Raised Notes.

SARNIA (Ont.), August 9.—For some time past the western part of Ontario has been flooded with \$1 and \$2 American bank notes raised to tens. Three or four arrests were made on suspicion but a speedy discharge followed in each case. The raisers of the notes have been accidentally discovered. On Saturday Provincial Detective Rogers went to Wilkesport to arrest Joseph and Justice Wetherell, suspected of burglary, but the latter saw him coming and escaped across the river. Rogers then searched the house and discovered an American \$1 bank note raised to a \$10, a large quantity of paper used in making the changes, engraving plates, paint brushes and acid used in erasing the original figures on the notes. The numbers were raised by means of soft paper and plates, the plates having been made in Detroit. Detective Rogers took possession and will notify the United States Government of the find.

Provisions in Tilden's Will.

NEW YORK, August 10.—Hon. John Bigelow was seen at his home 21 Gramercy place, and from him was learned the following facts about the will of Tilden: Mr. Bigelow, Andrew H. Green and George W. Smith are named as executors and trustees. In the general terms the relatives are handsomely taken care of by the receipt of specific incomes, which consume, Mr. Bigelow says, an amount not to exceed one-third of the estate. All the rest and residue is devoted to the public good, and the trustees are charged with the responsible duty of choosing such methods as shall prove the greatest good to the public in the disposition of this property. The estate is not as large as estimated by some people. The value has been placed at \$10,000,000, but Mr. Bigelow says this sum is double its actual value.

General Arthur's Condition.

NEW YORK, August 10.—A gentleman, of this city, who passed several hours last week with ex-President Arthur at New London says: "In view of the stories about his appearance and emaciated condition, I was most happily surprised to see the General looking so well. He weighs 175 pounds. There is a good healthy appearance to his skin—none of the flabbiness which has been reported. He certainly has been gaining. His conversation was animated and gave no indication that he was a sick man. He talked of taking a trip to see a friend which would have taken four hours. He has, indeed, taken the trip several times of late. During the conversation General Arthur was standing around most of the time, and no one who had not heard of his illness would have thought of him as a sick man."

Rumors of War.

NEW YORK, August 10.—There is some talk of war with Mexico. The Sun says: There was activity at army posts in and near New York yesterday, and communication with Washington was continuous. At Fort Hamilton the serviceable munitions were invoiced and inspected. It was determined how much could be depended upon from that quarter upon a sudden call. Fort Wadsworth, Willet's Point and David's Island had already reported at Pier 20, East river. Ten gun carriages for field batteries were delivered to the Mallory Steamship Company for immediate shipment to San Antonio, Texas, via Galveston. They will be carried by the Rio Grande, which will sail to-morrow. Colonel Hodges, of the Quartermaster's Department, who shipped them, said that the shipment was made in the ordinary course of business and not on special orders.

It is said that more carriages and some cannon will be put aboard to-day, and that arms are being shipped from Washington and Rock Island, and also from the Watervliet Arsenal, and that the United States ships Juniata and Vandalia left Brooklyn Navy Yard early last week under orders, it was said, for the Pacific. At Ellis Landing they received a supply of ammunition, and they have remained there ever since. The Essex left the navy yard at 6 o'clock yesterday morning, joined them and got her powder. The Brooklyn also is expected to take her departure to-day or to-morrow. At the navy yard it was said that the Essex was to join the Chinese Squadron if she was not needed nearer home.

Shooting Affray.

A shooting affray took place Tuesday evening in San Francisco between Milton McWhorter, editor of the Marysville Democrat, and Thomas G. Robinson, Deputy United States Marshal. Robinson came up to McWhorter, who was sitting in front of the Statehouse, and asked him if he was the author of a newspaper clipping he showed him. Receiving an affirmative reply, Robinson struck McWhorter, and in the scuffle which followed, McWhorter drew a pistol and shot Robinson in the abdomen. The wound will probably prove fatal. McWhorter has been placed under arrest.

LATER.—Robinson died at noon yesterday.

A Blind Man Restored.

Willis A. Parks, a blind violinist, who has been stopping at the New River mines for some time past seeking out an existence by playing in the saloons, met with the luckiest accident a few days ago that ever befell a man. Parks lost his sight when a boy from an aggravated attack of measles and for 23 years he has been unable to distinguish day from night. On the 14th of July he strolled from his tent and lost his bearings. In wandering around he fell down the shaft of the Mary Blaine mine, striking the bottom 18 feet below. The most serious of his injuries was a cut extending across the forehead, the skin being torn loose from the skull until it hung down below his eyes. The skin was placed in position and stitched by a miner by the name of Rourke, and after the injured man was washed he astonished the miners by stating that he could see, and in proof told how many men were around him, and gave the exact color of a dog which sat ten feet from the cot he was lying on. On the 16th Parks was able to be around, although feeling sore. His sight was stronger, and he was able to detect fine gold in a piece of rock. This is one of the queerest cases on record, and is vouched for by the best men in the camp.—Yreka Union.

Movements of the Cattlemen

The Montana cattlemen are waking up to the fact that they have been overstocking their ranges. When the grass has been eaten off until the pasture becomes poor, it takes a long time to restore productiveness. The graziers are now looking for fresh pastures. Some of them are selling off their herds to get out of the business before the pinch comes. Others are acquiring ranges in Alberta. Canadian party hacks and relatives of Cabinet Ministers and Members of Parliament have been granted leases in the Province without regard to their ability to stock them; they have kept out bon fide settlers, and are now selling their franchises to the Americans. This moves the Dominion press to opposition in the interests of the settlement and development of the country. Some of these great stockmen are also reported to be coming with herds to Nevada. The railroad lands in that State have been laid off in large cattle ranges, and an effort is being made to have the Government lands open for purchase in large tracts.—S. F. Bulletin.

An Attractive Tower.

When the great iron tower, 1,000 feet high, was proposed some time ago for the Paris Exhibition of 1889, many engineers doubted the feasibility of the project, judged from their point of view. However, M. Eiffel, went at the problem and evolved a design which was chosen and which it is proposed to execute. On the eve of accomplishment, however, a French "savant" comes forward with a timely warning of the fearful consequences which the building of the iron tower will entail. He says that the enormous blocks of iron running north and south would become polarized, and that this polarization will soon invade the whole column. Then who knows whether the four lifts, with their continual friction, will not increase the magnetic influence a hundred-fold? In this case all articles for a mile round will be attracted to the tower and will adhere to it as a needle does to a magnet.

If the troops quartered in the Ecole Militaire had by be called out to drill, it will be all in vain for the commanding officer to shout, "En avant!" if they are paraded with the column behind them. Then all the houses in Paris will suffer from a St. Vitus' dance, and, being gradually drawn toward the Champ de Mars, will finally find themselves stuck to the tower. As for locomotives entering Paris, it will be found impossible to stop them at the various termini; they will rush through the city and dash themselves to pieces against the center of attraction. These and other evils, we are told, will follow the erection of the great Eiffel tower, which might indeed be called the Terrible tower.—Electrical World.

Governor Ireland, of Texas, has issued a proclamation asking for relief for the drouth sufferers.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, flimsy or phosphate powders. **SOLD ONLY IN CANS.** ROYAL BAKING POWDER CO., new-l-d&w 104 Wall St., New York

Mills & Co., Sacramento; Agency Bank of California, Virginia City; Wells, Fargo & Co., Carson; Bank of California, San Francisco. Telegraphic transfers made through the above correspondents.

NOTICE.

THE BOARD OF COUNTY COMMISSIONERS of Washoe county, Nevada, propose to build two new bridges across the Truckee river—one in place of present bridge at Mayberry's ranch, and one across the river at Reno below the V. & T. railroad bridge, opposite the plans corral. Notice is hereby given that the title and specifications for both of said bridges will be received by the Board up to Saturday, August 14th, at 1 o'clock P. M. Fifty dollars will be paid to the party or architect, whose plans and specifications are accepted, for the bridge at Reno, and twenty dollars for the Mayberry bridge. Information relative to the character of the proposed bridge can be obtained of S. O. Rogers, T. K. Hyman, or of G. W. Huffaker, Commissioners. By order of the Board, T. V. JULIEN, Clerk.
Reno, August 7, 1886.

Entry Notice.

A pinto sorrel gelding came into my enclosure August 1st, 1886. The owner can have the same by proving property and paying charges.

THE GRAPE CURE.

SAL-MUSCATELLE

IN AMERICA

Without the Expense of an European Journey!

The crystallized salts, as obtained in a pure state from grapes and choice fruit, in a portable, palatable, simple form, are now presented to the public of America as the grandest solvent of impure blood, corrector of the liver and regulator of the bowels—the natural promoter of

HEALTH AND LONGEVITY.

Eminent physicians claim this achievement new era in the allied science of medicine, as it furnishes the blood with its natural salutes that are lost or eliminated every day.

Sal-Muscatele

A POSITIVE NATURAL

SICK HEADACHE and DYSPEPSIA CURE.

Sal-Muscatele is Nature's own product. It supplies to the system the want of sound, ripe grapes and fruit; it is the simplest and best preventative and cure for all functional derangements of the liver and its kindred ailments; prevents the absorption of malarial diseases—fevers of all kinds; counteracts the effects of bad air, poor drainage and impure water; a powerful oxydizer of the blood; a natural specific for all skin eruptions, sick headaches, biliousness, nervousness, mental depression, and will remove the effects of accidental indigestion from excessive eating and drinking. Have it in your home and on your travels. It is a specific for the fagged, weary or worn-out. Prepared by the

London Sal-Muscatele Co.

LONDON, ENGLAND.

Beware of imitations. The genuine in "blue wrappers only."

NEWS.

Nasby's thermometer yesterday at 7, 9, 11, 1, 3 and 5 was 81, 87, 90, 89 and 84.

Bishop Whitaker left yesterday morning for Ft. Reservation to make a short visit.

The Band of Hope will meet at their room this afternoon at 2 o'clock for rehearsal. A full attendance is desired.

The Public Administrator has appealed for letters of administration on the estate of "Curly" Hogan, who was shot at Carson July 4th.

The last will and testament of Robert A. Frazer, deceased, has been filed for probate. Mrs. Jeannette Frazer, the widow, and Barney Clow are named as executrix and executor.

John Frost, the Reese River Pioneer who died in Austin a few days ago, was insured in the New York Mutual Life Insurance Co. for \$10,000. Thus did he thoughtfully provide for his widow and children, as every family man should.

On the 24th of this month the Indians are to commence making a circus ring here for a general dance which is to be attended by Washoes, Putes and Shoshones. Johnson Sides gives notice that no whisky will be allowed on the grounds during the dance, which is expected to last for a week.

D. L. Sayre left yesterday morning for Winnemucca to look into the cattle interests of Nevada, preparatory to starting the "Sagebrush Stockman," a new paper to be published in Reno by Sayre & Vance, two practical printers. It will be a seven-column paper and devoted to the interests of the stockraiser and herdsman of Nevada.

INFORMATION WANTED.—An account of the mysterious disappearance of Harry Doyle from his home near Island Mountain about two months ago, was published in the Independent, but notwithstanding the efforts of his friends in that vicinity no trace of him has yet been discovered. The missing man is an American, about 45 years old; hair and beard sandy; wore monocle and chin whiskers; is rather careless as to dress. Any information that may lead to the discovery of his whereabouts, will be thankfully received by Hugh Martin, Island Mountain P. O., Elko county, Nevada.

GENERAL LOGAN'S RECEPTION.—At the meeting held Tuesday evening at Justice Young's office for the selection of a committee to arrange for the ceremonies incident to the reception and entertainment of General Logan and party on next Friday evening, the following named committee was selected: R. H. Lindsay, Dr. S. Bishop, D. H. Pine, Judge W. M. Boardman, J. F. Alexander, W. O. H. Martin, T. K. Hymers, J. J. Linn, A. A. Evans, Chas. Johnson, Dr. H. H. Hogan, Dr. A. Dawson, H. P. Kraus, L. D. Folsom, G. R. Mosher.

THE SUTRO RAILROAD.—Ground was broken Monday on the new Suto railroad from Cemetery avenue, San Francisco, to the Cliff House. The road begins on Cemetery avenue, at the terminus of the Geary street cable road, running thence north to California street, thence westerly to Lake street, west on Lake street to the City Cemetery, thence passing along the cliffs north of the cemetery, and skirts the Golden Gate and ocean to the Cliff House.

OFFICERS ELECT.—At the annual meeting of shareholders in the Salt Lake and Western Railway of Nevada, held at Austin August 4th, the following Board of Directors was elected for the ensuing year: Charles Francis Adams, Jr., S. R. Calaway, Sidney Dillon, Fred. L. Ames, Andrew Nichols, M. J. Farrell, C. W. Hinchcliffe, Melville Curtis and William Foster.

INTERVIEW WITH HON. C. C. STEVENSON.—The Enterprise of Tuesday morning says: Meeting the Hon. C. C. Stevenson yesterday, and, in response to inquiries in reference to his candidacy for the office of Governor of Nevada, we ascertained that Mr. Stevenson will accept the nomination for Governor if the same is tendered him by the Republican Convention that will soon meet at Carson. Mr. Stevenson will not devote his time to capture this or that county delegation, but will leave the matter to the good sense and judgment of the Convention, when that body meets. He has been a resident of this State since 1859, has served two terms in the Senate of Nevada and has represented the Republican party in three National Conventions. In 1876 he was the State Centennial Commissioner, representing Nevada at the Centennial in Philadelphia, has been a member of the Board of Regents of the University of Nevada for two terms, and has been Chairman of the Republican State Central Committee for a long period. He is an excellent citizen and business man, amply qualified by education and legislative experience to fill with honor to himself the seat of Governor of this State.

NORTHERN CATTLEMEN SHIPPING TO CHICAGO.—W. B. Todhunter and L. Godehnux, two prominent stockmen, were interviewed by a Winnemucca Silver State reporter Monday relative to the extent of the cattle shipping business from Southeastern Oregon and Southwestern Idaho to Chicago and other eastern markets, and they gave it as their opinion that at least 25,000 head of cattle, from sections which until last year found a market for their beeves on this Coast, would this year be shipped East. Todhunter & Devine will ship about 9,000 head; Peter French about 4,500, Hock Mason, from the Overfelt ranch, about 4,500; Stauffer & Sweetser 1,000, and T. R. Davidson and Smith Brothers several hundred each. Besides those mentioned, all of whom have their ranges in Grant and Baker counties, Oregon, W. F. Somercamp, John Shrode, David Hyde, H. Myers and others in Southwestern Idaho will ship East. Heretofore nearly all the beeves from the localities mentioned were driven to the Central Pacific Railroad at this and other points and shipped to San Francisco.

A FEARFUL TRAGEDY.—The town of Austin was shocked Monday to hear that John G. Johnson had stabbed James Mark to death, and badly beaten Robert McAuley. John G. Johnson, who admits the stabbing, and James Mark married two sisters of Robert McAuley. This, of course, makes them all brothers-in-law. They, with others, had been in a saloon together playing "pigeon hole," and Johnson and Mark got to quarreling. They started for home together and it seems kept quarreling until they came to blows and the two men clinched and fell when Johnson stabbed Mark several times, one cut on the face severing an artery and causing his death. After the affray with Mark the other brother-in-law, McAuley, came along and started to take up the fight of Mark, when Johnson knocked him down and beat him fearfully with rocks.

LOSS OF CATTLE.—According to the International Live Stock Journal, the loss of cattle on the trail this season is without parallel in the range stock business. The range is strewn with carcasses. This has resulted from several causes. The herds were, as a rule, in poor condition for starting. The long drought made grass and water short, and the general occupation of the range leaves but little room for traveling cattle. The occupants of the range along the trail have thrown every obstacle in the way, and the owners of herds have found great difficulty in crossing the political boundary lines.

BUILDING FRUIT CARS.—It is thought, says the Sacramento Bee, that the Southern Pacific Company would not be building 200 fruit cars if they entertained an idea that large quantities of fruit would not be shipped East. The department in which these cars are made presents a very busy scene. Over forty cars are on side-tracks waiting for roof material to arrive from the East. As soon as the cars are roofed they will be put on the road.

LAKE TAHOE.
Its Depth and Temperature.

Carson Tribune.
So many reports are spread about concerning the depth of this wonderful sheet of water that but few really know which to accept. Some reports go to show that no soundings were ever obtained in the center of the Lake and others that the greatest depth is 2,300 feet. The following, ascertained from John McKinney, one of the oldest residents on the Lake shore, and who assisted in taking the soundings, may prove interesting to the general public: Fifteen miles of the Lake on the State line averages 1,400 feet. The center of the line is 1,500 feet deep. Three hundred yards from the mouth of Emerald Bay the water is 700 feet deep, and four miles east thereof the soundings are 1,400 feet. At Rubicon rock, 300 feet from shore, the water is 850 feet deep, and four miles out, easterly, it reaches 1,460. At Sugar Pine Point, one-half mile south, the depth is 770 feet, and four miles out, pitching to the north, 1,500 feet. Half a mile from Idlewild the depth is 780 feet, and six miles out, 1,525 feet. At Saxton's old mill, near Tahoe City, 772 feet of water is found one-quarter of a mile from shore, and five miles east by north 1,003 feet is reached. At Observatory Point, one-quarter mile N. E. from Tahoe City, soundings are 1,300 feet, and four miles east 1,640. Four miles south of Hot Springs 1,645 feet, the greatest depth in the Lake is found. Blue water in any portion of the Lake averages 1,300 feet. The temperature of the Lake water at 800 feet is found to be 42 degrees; at 1,500 feet 39 1/2; at the surface, in Winter time, the temperature is 44, and in deep water, during the Summer, 65 degrees.

The above will doubtless attract both interest and comment, but coming from the source it does, must be entitled to consideration. The theory of Mr. McKinney as to the original formation of the Lake is that it occurred in the Glacial period and not from volcanic action, and if space permitted his opinions on the subject would be given at this time, but it is certain that the bottom of the Lake is riven, as are the surrounding mountains, into chasms and ravines, leaving plateaus that extend for miles, as do other valleys or land. Could the water be drained from the Lake the bottom would be several hundred feet lower than Carson Valley, which valley was undoubtedly caused by the same operation as the Lake and was itself an inland sea or fresh-water lake. A deal of sound sense and deep study is evidenced by Mr. McKinney's theories and argument, and it would be much to the benefit of science if they could be published.

TO TAKE THE WILDEST HORSE.—The Mining and Scientific Press publishes the following method of taming the wildest horse: "Take finely grated horse castor, oils rhodium and cummin, keep these in separate bottles well corked; put some of the oil of cummin on your hand and approach the horse on the windy side. He will then move toward you; then rub some of the cummin on his nose, give him a little of the castor on anything he likes, and get 8 or 10 drops of the oil rhodium on his tongue; you can then get him to do anything you like. Be kind and attentive to the animal and your control is certain.

STATE LAND SALES.—The Free Lance says: The present sales of State lands is unprecedented in the history of Nevada. The sales in one month now amount to as much as formerly they amounted to in one whole year. Last month there were sold by General Preble and Deputy Notewares over 40,000 acres of land. The receipts from these sales amount to \$50,000, thus swelling the school fund to this extent. The selections of lands are made principally from Humboldt, Elko and Washoe counties.

ADVICE TO MOTHERS.
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-awf-1v
